WICHITA MARKETS.

The Receipts of Stock at the Wichita Union Stock Yards for the Past 24 Hours were: Cattle 622; Hogs 1,272. Shipments: Cattle, 706; Hogs, None.

WICHITA, Nov. 20.

Supplies in cattle today were moderate, and the offerings were confined to native cattle. The offerings consisted of medium to choice grades and a number of good sales were made at strong prices. The best grades sold well today, and salesmen ound no trouble in getting buyers. The best prices of the season were paid today and the market is considered much improved. Good to choice butcher stuff is adly wanted and will find ready sale, while the common stuff is weak and is

BEPRESENTATIVE SALES

There were about 1,000 hogs on sale at the opening of the market this morning, and with but one packer buying The arket opened 10 cents lower, and in the afternoon dropped another nickel. Dold took about 1,000 hogs and outside buyers bought about 300. The fresh receipts dur-ing the day were 1,273 bogs, and over twelve loads which could not get a bid, were held over. The hog market is in a demoralized condition. Bulk today brought \$3.40(\$3.45, and tops, \$3.65. The load that sold at \$3,65 was choice stuff. The market closed weak.

COMMISSION

A Course of Study and Training That Weeds Out from the Priesthood Many Men Who Are Not Possessed of an Unflagging Zeal-Plain Food and Prayers.

What kind of a life is it in our colleges? Well, I suppose it is much the same as the life in colleges which are MERCHANTS not ecclesiastical. Of course, church students have many more prayers to say, and are expected to observe the rules with more fidelity than other students.

They rise early-in foreign colleges at 5 in winter and 6 in summer-in most English colleges at 6 all the year round. Half an hour is allowed for dressing, after which all go down in silence to the church, where morning prayers are said, and a meditation is held for balf an hour on some spiritual subject. Meditation is followed immediately by the celebration of mass, and altogether about an hour is spent every morning in spiritual exercises. Then follows study till breakfast time, at 8.

Breakfast consists of a bowl of coffee or tea, with bread and butter at discretion in the home colleges, while abroad one has a choice between coffee, milk and chocolate, but the bread must be esten dry. It is wonderful what a substantial meal can be made of coffee and dry bread when there is nothing else to be had. A few minutes for recreation are allowed after breakfast, then work goes on till dinner time, broken only by half an hour's recreation at 11 o'clock. PLAIN FARE.

Dinner, which is eaten at 1, is always a good, substantial meal, and ample justice is done to it after the rather thin breakfast. No study is allowed during the hour and a half following dinner. All who are well enough must join in the public games, which RENTING and COLLECTIONS. for the most part are played with great spirit and keenly enjoyed.

At 3 o'clock the studies commence again, and class and lecture or preparation for them, with half an hour's rest When you go, take the Frisco line to St. Louis and the east for the reason that it is the only Wichita line running two solid trains daily without change of any class to St. Louis morning and night and it is the only line having palace reclining chair and Bollome descriptions. at 5, go on until 7 or half past, when thirty minutes are given to prayer and the reading of the life of some saint. After the prayers all go to the refectory for supper, which, like dinner, is eaten Puflman sleeping cars in morning and night trains. Always on time and sure of making eastern connections at St. Louis in silence, broken only by the voice of the reader, who reads aloud some biographical or historical work.

After supper there is recreation, and Go east via the "New Short line, Mis at foreign colleges this is always the souri Pacific "Pleasant Hill route," Through sleeping and chair cars without change Wichita to St. Louis. 58d tf favorite hour of the day. And very pleasant it is to hear the fresh young voices and merry hearted laughter echoing along the college cloisters.

At 9 the big bell rings out again for the last time that day, and at its first peal the talk and laugh are hushed, the groups break up, all-professors and church students alike-make their way to the church for night prayers. Prayers over the points for the next morning's meditations are read out, and after the singing of a hymn all retire to a well earned rest, which in most cases is only too soon disturbed by the noisy clanging of the great bell in the early morning. THE WORK IS HARD.

Of course, every day is not a study day. Sunday is always, more or less, a day of rest, and at least one afternoon every week is devoted to outdoor recre-

Yet, in spite of occasional play days, as they are called, and the holidays twice a year, the life is hard enough. It must necessarily go on for some dozen years before the student is called up for ordination. The life of a Catholic priest is indeed one to which many are called, Blanche suddenly colored when she heard but few are chosen. A great number of of ordination.

In some cases health breaks down, many grow weary of the routine and strict discipline of the life, others discover that they have no calling for the cover that they have no caiming for the ecclesiastical state, and go out into the world to begin life afresh. So, from one cause or another, the student finds that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that by the time he is ready for orditable that be a subject to the time he is the subject to th that by the time he is ready for ordination he has lost the company of many who stood by his side when he entered

Of six who went to college some seventeen years ago with the present writer, one is dead, one is practicing as a doctor in the United States, a third is manager of a bank in the north of England, another is serving as a mounted policeman in South Africa, and only two are priests.-A Catholic Priest in Lon-

No Animals in the Dry Parts of Caves. No animals whatever are found in the dry parts of caves. Dampness, or a certain degree of moisture, seems to be essential to their existence. Under the stones one finds white, eyeless worms, and in the damp soil around about are to be discovered blind beetles in little holes which they excavate and bugs of the thousand-leg sort. These thousand-leg bugs, which in the upper world devour fragments of dead leaves and other vegetable debris, sustain life in the caverns by feeding upon decayed wood, fungus growths and bats' dung. Kneeling in a beaten path one can see numbers of them gathered about herdened drips of tallow from tourists' candles.
